This application is a divisional of United States Patent Application Serial No. 10/043,954, filed January 10, 2002, now abandoned, and is incorporated herein by reference.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The closest prior art (Xu et al.) does not disclose or suggest an FCC process in which the two cracking zones are operated at the claimed conditions. Xu does not suggest these conditions because the desired gasoline product of Xu is not the same as the desired propene and butene product of the claimed invention.
